

GV217 - Conflict Analysis

University of Essex - Department of Government

Lorenzo Crippa

Week 19 – 7 February, 2020

Grievances vs feasibility

Grievances:

Grievances vs feasibility

Grievances: People *want* to rebel

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods
- Discrimination

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods
- Discrimination
 - Ethnic fractionalization

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods
- Discrimination
 - Ethnic fractionalization
 - Polarization

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods
- Discrimination
 - Ethnic fractionalization
 - Polarization
 - Segregation

Grievances vs feasibility

Grievances: People *want* to rebel

- Socio-economic inequalities
 - Income
 - Access to resources
 - Public goods
- Discrimination
 - Ethnic fractionalization
 - Polarization
 - Segregation
- Repressive government

Grievances vs feasibility

Feasibility:

Grievances vs feasibility

Feasibility: People are *able* to rebel

Grievances vs feasibility

Feasibility: People are *able* to rebel

- Funding sources

Grievances vs feasibility

Feasibility: People are *able* to rebel

- Funding sources
 - Natural resources

Grievances vs feasibility

Feasibility: People are *able* to rebel

- Funding sources
 - Natural resources
 - External support

Feasibility: People are *able* to rebel

- Funding sources
 - Natural resources
 - External support
- Low cost for recruitment and fighting

Grievances vs feasibility

Feasibility: People are *able* to rebel

- Funding sources
 - Natural resources
 - External support
- Low cost for recruitment and fighting
 - Weak states

Feasibility: People are *able* to rebel

- Funding sources
 - Natural resources
 - External support
- Low cost for recruitment and fighting
 - Weak states
 - Poverty

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

Greed/Opportunity: make conflict “attractive” and/or a viable option

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

Greed/Opportunity: make conflict “attractive” and/or a viable option

- Presence of loutable resources (diamonds, heroin, cocaine etc.)

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

Greed/Opportunity: make conflict “attractive” and/or a viable option

- Presence of lootable resources (diamonds, heroin, cocaine etc.)
anything else?

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

Greed/Opportunity: make conflict “attractive” and/or a viable option

- Presence of lootable resources (diamonds, heroin, cocaine etc.)
anything else?
- Mountainous terrain

What makes conflict feasible?

Greed/Opportunity: make conflict “attractive” and/or a viable option

- Presence of loutable resources (diamonds, heroin, cocaine etc.)
anything else?
- Mountainous terrain
- Weak states
- Poverty
- Youth bulges (unemployed young males)

What makes conflict feasible?

Feasibility: easier to recruit, finance, and sustain rebellion

Greed/Opportunity: make conflict “attractive” and/or a viable option

- Presence of lootable resources (diamonds, heroin, cocaine etc.)
anything else?
- Mountainous terrain
- Weak states
- Poverty
- Youth bulges (unemployed young males)
- Availability of arms (surrounding conflicts!)

Feasibility Hypothesis

Collier and Hoeffler (2004):

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.**

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita
 - Growth of GDP/capita

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita
 - Growth of GDP/capita
 - Primary commodity exports

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita
 - Growth of GDP/capita
 - Primary commodity exports
 - Proportion of young men

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita
 - Growth of GDP/capita
 - Primary commodity exports
 - Proportion of young men
 - French colony

Feasibility Hypothesis

Collier and Hoeffler (2004):

- Where rebellion is feasible it will occur
- Motivation/Grievances are more relevant for propaganda purposes
- Rebel army is really expensive
- **Financial and military viability = Feasibility.** How can we measure it?
 - Low GDP/capita
 - Growth of GDP/capita
 - Primary commodity exports
 - Proportion of young men
 - French colony
 - Mountainous terrain

What type of cause for a civil conflict is feasibility (greed)?

What type of cause for a civil conflict is feasibility (greed)? Is it a necessary cause?

What type of cause for a civil conflict is feasibility (greed)? Is it a necessary cause? Is it a sufficient cause?

What type of cause for a civil conflict is feasibility (greed)? Is it a necessary cause? Is it a sufficient cause? What about grievances?

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion...

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion... **BUT** emotional and moral reasons were essential

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion... **BUT** emotional and moral reasons were essential
 - The government as a profoundly *unjust* authority
 - *Pride, dignity, and joy* with participating in the insurgency

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion... **BUT** emotional and moral reasons were essential
 - The government as a profoundly *unjust* authority
 - *Pride, dignity, and joy* with participating in the insurgency
- Horizontal Inequalities

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion... **BUT** emotional and moral reasons were essential
 - The government as a profoundly *unjust* authority
 - *Pride, dignity, and joy* with participating in the insurgency
- **Horizontal Inequalities**
 - *What kind* of grievances matter? When and how?

Wood (2003): Collective Action Problem in El Salvador

- Moral and emotional imperative vs. material gains:
Material grievances motivate rebellion... **BUT** emotional and moral reasons were essential
 - The government as a profoundly *unjust* authority
 - *Pride, dignity, and joy* with participating in the insurgency
- **Horizontal Inequalities**
 - *What kind* of grievances matter? When and how?
 - Economic, political, social inequality *between groups*

Are grievances and opportunity (greed) mutually exclusive?

Are grievances and opportunity (greed) mutually exclusive?

Example: **Resource curse**

Are grievances and opportunity (greed) mutually exclusive?

Example: **Resource curse**

- Oil (or resource): greed
- Exclusion from the resource: grievance

All clear? More questions?
See you next week!
